

## Horizontal Image Display

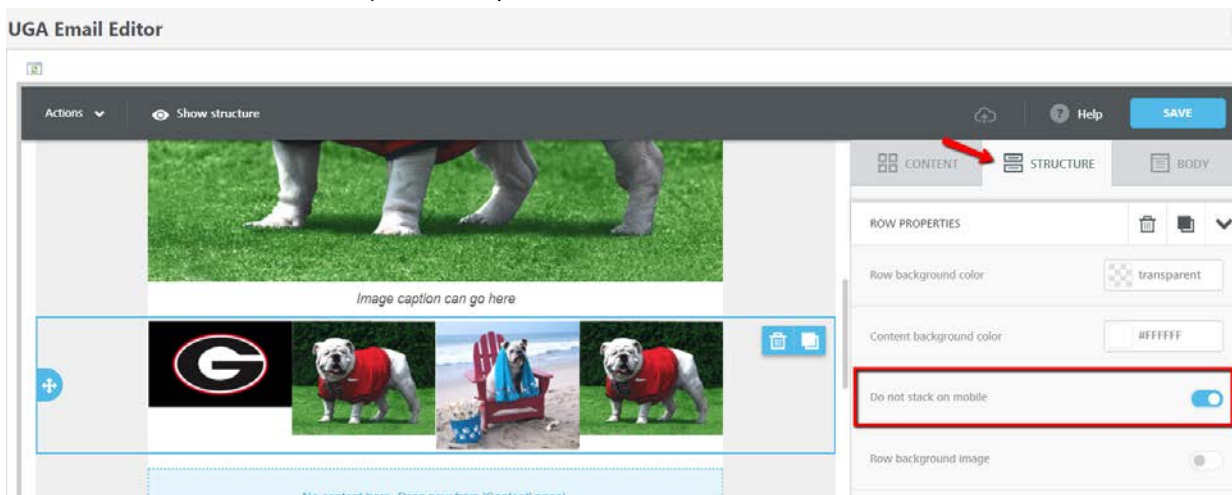

1. Click on the Structure tab and select a multi-column structure display:

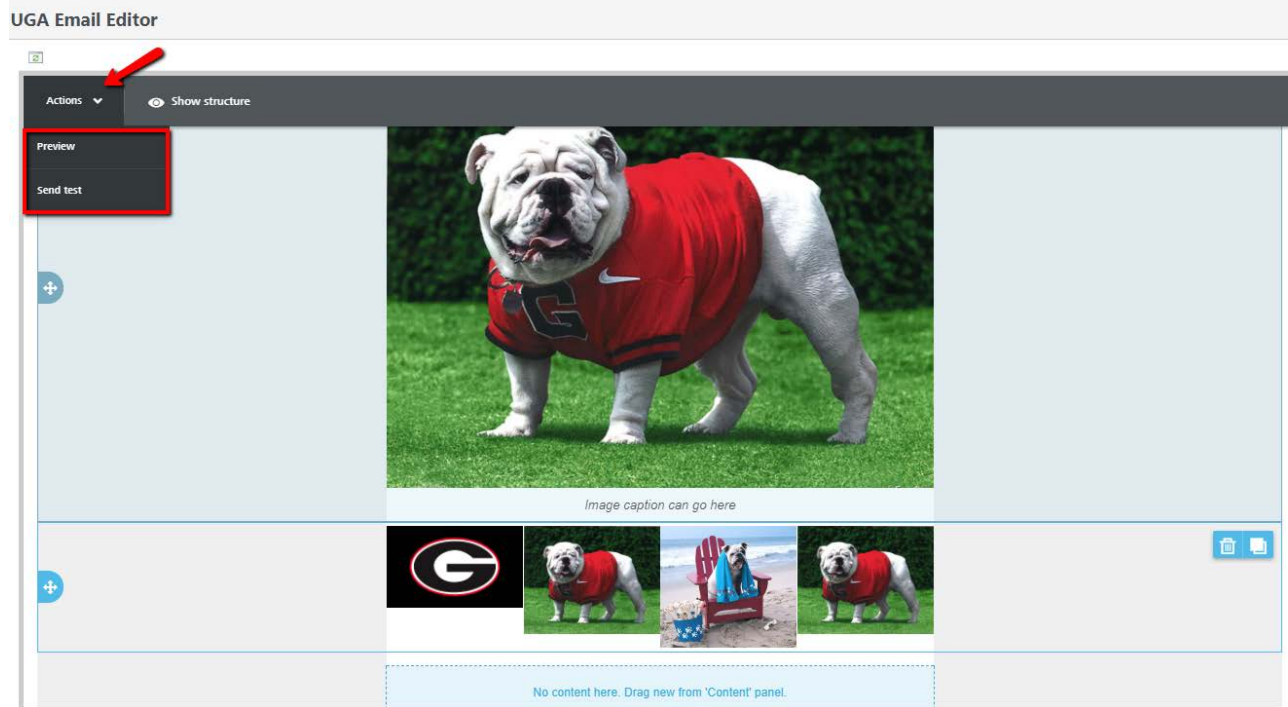

2. Click on the Content tab, then click and drag the image placeholder into each column.

3. Click back on the Structure tab, then click/slide the **Do not stack on mobile** feature:

4. Click the *Actions* drop down menu to preview and test:

5. In Preview mode, Switch to Mobile to view the new layout:
